Reasons for Allowance

Claims 7, 13-16, 18 and 20 are allowed.

This is examiner's statement of reasons for allowance.

The instant invention recites an image reading apparatus having a reading mode for reading an image on a still document and a reading mode for reading an image on a moving document, comprising;

a third reading station situated slightly away from the second platen glass and having a contact glass for reading the other surface of the moving document situated at a side opposite to the second reading station and formed integrally with the first guide member as one unit, and a second guide member adjacent to the second platen glass to face the contact glass, said first platen glass, second platen glass and second guide member being arranged linearly in a horizontal direction in this order on a same plane such that document surface thereof have same heights, and said second platen glass and second guide member form a continuous flat document guide,

supporting means for swingingly supporting said first guide member and second contact glass.

The features identified, in combination with other claim limitations, are neither suggested nor discussed by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
